

# Silent Retreat On Prayer

## Retreat Details:

Living in a noisy and activist culture continues to move us further and further from God and is a serious challenge for the believer. Many times we find it hard to live in contact with God in the midst of so many activities and distractions. This is why the need for silence is felt with urgency: we need to have moments of deep and active silence, where we can listen to the voice of God and to our own voice. In this silence, we will meditate in prayer as a fundamental answer for our lives and in different ways have a profound prayer life.
